

Industrial IoT Solutions

-  Ruggedised
-  Battery Operated
-  Network Agnostic
-  Modular
-  Integratable

Ellenex is a pioneering engineering, design, manufacturing, and advanced technology company at the forefront of the industrial internet of things (IIoT) space. We specialize in creating low-power sensors, operating systems, and software platforms to address the challenges of industrial asset monitoring in remote areas. At Ellenex, we believe that industrial IoT solutions must be modular, integratable, and application-centric to ensure scalability and profitability for our customers. Our philosophy and key differentiator lie in our commitment to modularity and integratability. With over 20 years of experience in design, manufacturing, and integration, Ellenex is one of the first companies to introduce integrated LPWAN sensors and solutions.

Countries Reached by Sales

Ellenex devices can communicate on all major IoT protocols for maximum **interoperability** and **modularity**

Products

Pressure Sensors

Level Sensors

Temperature Sensors

Sensor Interfaces

Distance Sensors

Water Quality & Flow Sensors

Software Platform

Downlinks: Easily adjust data collection frequency through direct configuration on the platform.

Security: Control access to devices and data with fine-grained access control features, preventing unauthorized access to sensitive information.

Scalability: Our platform utilizes serverless architecture to ensure scalability, allowing users to easily accommodate growth and changes in demand.

Device Integration: Seamlessly connect to Ellenex IoT devices for efficient data collection and management.

Data Visualization: Visualize data in granular or aggregated views with customizable presentation options.

Alerting: Receive email or SMS alerts when sensor data crosses a threshold for prompt response to critical events.
